ALL ABOUT THE BIG JOLLY SNAILY WORLD

STAR STABLE POWERED BY PIZZA & ICE CREAM!

SALLY SAYS ...

Hi, Sally is JSG charity Snail. Sally will give you random Snail facts every week :D You will hear more about Sally when the registered charity number is established :D

Fact 3—Snails Have Ability To Think Due To Brain!

Dear Nessie ...

Dear Nessie! I have such an inactive club, and everyone who joins it leaves. I wish there was a way I could get more people to join and stay while active. I mention I only come on maybe once a week because I enjoy Roblox aswell but I still want a good club. Can you please help Nessie?

Hiya friend :) Thanks for your letter :) I am so sorry to hear that you have an inactive club, sadly this happens all too often :(Here is a Nessie hug! For a club to remain active you have to put a lot of time and energy into it. That's great you also enjoy another game, but maybe try and have 2 events a week. With the new app you can keep in touch with your members without logging in, this might help to show you care and are there for them. Never take members leaving to heart, I know this is easier said than done, and I too on occasion get upset when some members leave. It is the nature of the club life that members will come and go. Always let your members know when they can expect you on, maybe plan your club calendar so they can get excited about upcoming events. Good luck! Love and hugs, xx Nessie xx

Hiya! Welcome to the third of our papers :) I hope you are enjoying them. Poor Star Stable team have been working all hours to help sort out the latest update where it did not go to plan. Us here at JSG send the team love and hugs! Hopefully despite this you have all had lots of fun celebrating SS 5th Birthday this week :D I was pleased to hear Archie had put the team on a sugar high and that they are powered by Pizza and Ice-cream :) Remember everyone, Star Stable need your support not attacking when things do not go to plan. Accidents do happen. Time to show we are a community at times like this.

Nessie Review

Hi :) This weeks food review takes us to the "Ma Anna's Pastry Shop" It is located in the picturesque Firgrove village up on the hills. This is one of my favorite cafes as it is such a pretty location and the staff are always singing a happy song. Sometimes you even get served by the lovely Anna and on occasion will pop over for a chat :) Her pastries are second to none, I love her lemon cake and always get given some to take away for my travels. The waitress is a smart happy person and is always super fast. As you can see this week I had the pleasure of eating a lovely slab of birthday cake :D The cappuccino was a welcome site on this cold day, as you can see the thought of holding that hot cup was exciting! There is plenty of seating here with lots of tables to suit both parties of 2 and 4. Not every chair has a cushion, so good luck winning the coin toss for the cushioned seat. Thankfully the birds singing and the atmosphere here is enough to make you feel comfy even if you don't have the cushion. This is also in global range so you can have a great natter while enjoying the vast menu. I give this an easy 5/5 stars. Host your next club event there if you want your club and taste buds to have an equal treat :) Remember to take some home with you for your next picnic bench visit :) xx Nessie xx

Racing news ...

Hi! This week I thought it was finally time to give up and go for something a little closer to the season. And who better to highlight autumn than a redhead!
 This darker and cosier look (modelled by Fire Star's Reb Dawntree Jnr & Firesoul) is complimented with a couple of swappable items (bows and saddle bag) to match her hair. I'd suggest changing these to match your own hair for a bit of fun, although a darker colour does work better with the rest of the gear. And that gear? Most of it is fairly new and everything can be bought from the Jorvik City Mall. The sweatshirt is cheap with great stats and the boots with the burgundy sheen work with it perfectly. The blue skirt is so dark it could pass as black and is a nice middle-ground between the top and the hat and gloves which are actual black. Tack-wise it's beige, black and that hint of burgundy again which looks great on the black morgan. If you have a few SC spare the wraps with their little stars look great with this tack! All in all it's practical and smart for the more blustery autumn evening at the yard :)

This week is Star Stable's birthday - Along with it came the birthday races, which mean fun for racers and trainers alike! Plenty of new people are getting PBs, and climbing the boards which is good to see. Plenty of people are having a go where they can, and good outcomes are popping up everywhere! Trainers are training up their horses with help from the birthday races - 1500xp a day and 50js! Thank you Star Stable for the chance for everyone to max out their horses quickly!

straight from horses mouth ...

Hiya all, Mousemint here - there were quite a few horses wanting to take this week's column, but as I was roundly humiliated by Mistmagic about my name last time Madelyn said I could do this week. I actually marked the point at which she decided to start making different combinations of already used M names rather than new ones - just as well as the only unique name left was Moneymother, and I'd rather run away or refuse to leave the stable at all than be landed with THAT little number!

As you'll notice I am level 13 and I'm afraid I'm not the only one - as the levelling up gets a lot slower from that point onwards my owner either cracks on and makes the push to level 15 like with her fancy new frezzys or, well let's just say she gets a bit distracted and doesn't. I've never been sent away to Horse Island though which is something, and I'm a bit of a favourite with the stable helper as she always sleeps above my stall and says I have a cute kissable pink nose - and you know what, I agree with her :)

Anyway, what's been happening recently - well I got to come out on a lovely birthday bash last week, western it was and we were all seeking sneaky bandits. Personally I'm sure that I could have caught the lot of them no worries but my owner seemed to spend a lot of the time failing to find the simplest of shortcuts, so we stuck to the obvious routes and got absolutely nowhere for our troubles! At one point the master bandit Nessie was even right behind us, I saw her of course but did Madelyn? Obviously not, for horse's sake! I did get to wear some very nice new tack though, all black and white to match me, her and the saddlebag cat so I like to think that we may have lost the event but we at least did OK in the fashion war.

Meteorismist the icelandic went out for our owner's Snail Of The Month prize of a day with Nessie - I wasn't bothered about missing that though as it was in Dino Valley, and that place is waaay too cold for me! She got enough bones to hand in two skeletons which made her very happy, and so were we as we all got fruit for dinner to celebrate :) As usual all the club events were on that little upstart welsh pony of hers, he thought he was set up for life as our owner hates training ponies but with the return of the birthday races this update she has taken the plunge and is training up another! It's good to have another horse smaller than me and Marblemaniac the other APH in the stable - the rest often look down on us as we're both a bit on the short side, but we don't care as in the right hands (i.e. not Madelyn's) we are some of the best racers out there!

Anyway must go as I can hear the stable helper getting our dinner ready, which for some reason she does up in the attic section - she does quite a lot up there including poop scooping which makes us laugh, there's not going to be much to shovel unless we grow wings neighahaha! Happy riding all,

Mousemint x

Staff urgently required in Firgrove. All applicants must speak to Felicity direct. Rumour on the yard is that you need to speak to James in Fort Pinta, this is NOT true and Felicity has asked me to mention this. James is after free labour to help with his job instead of doing it himself then billing Felicity.

Star Stable are celebrating their 5th birthday so this means until Wednesday 19th October 2016 balloons need blowing up daily, popped ones need picking up to avoid choking, cake needs cutting, table needs to be kept clear so at anytime there is no dirty plates on the long tables. Also if possible please can you run a duster around the Inn so it is ready for people who wish to stay the night at Firgrove. The balloons are located all over Jorvik so please have your own horse for transport. Any member of staff licking the icing will be relieved of their new duties. This work is done for a small wage and you will be given a video to watch on how to avoid James' ploys to free labour. Ideally suited to people with chicken experience as on occasion Andy needs your help. All applicants must be done by Wednesday 19th.

DIY Livery at "Golden Leaf Stables"

The amazing opportunity has arisen for some lucky players to have livery at GHV. Spaces do not happen very often due to everyone making it their home when they unlock the gates to this picturesque location. This time of year it will make you feel warm from the glow of the golden leaves that gently float by as you are riding along, especially in Golden Leaf Forest. The water here is a lovely shade unlike anywhere else. They have the best sunsets and sunrises and can be enjoyed when you are out for a beach ride that is open to horses all year around. The season stands still here but the action doesn't with it's very own championship which is sure to get the blood pumping. All spaces Carin is hoping to have filled before Halloween so you can all have a lovely Halloween party there with your friends and clubs. This stable currently has a lovely option of reading mail from inside the stables. Ideal when you are trying to send letters to friends / fans / club members / potential members in total piece. Use your mouse by the notice board inside and you will see the envelope. This has lovely races and the stable work you can do for Carin pays very very well. You will probably spend it all on BBQ's around the lovely town. Don't let the Mayor and Pi secret scare you... Contact Carin direct if you are interested in a look around. You must be level 14 and have opened the gates to apply. Plenty of Sea men to help you with your baggage and will always give you a lovey wave.

JOLLY SNAILS GUILD is looking for nice, jolly, friendly new members to join the already amazing team. Jolly Snails Guild has been established for over 18 months with no change of ownership and no breaks. We have events 7 days a week—yes you read they right SEVEN events a week. All events are of great variation and all Nessies own inventions :) With new events being invented all the time. As a JSG member you will also be a part owner of 1 acre of moon and can enjoy the fact there is a star in Leo named after the club. These are just a couple of the things Nessie done for the 1 year anniversary. There are many perks in this club including having Star Coins brought by Nessie as prizes for Snail of the Quarter and Year (Year also includes some epic gifts) There is also Snail of the Month which has been happening since April 2016 and includes prizes. These are done on a transparent point scoring system in place. If you would like to be a part of this team, please contact Elvira Dragonnest with the subject "Snails On Sunday" When doing so, please tell a bit about your character, the things you enjoy in the game as this club is about how you will fit in, not numbers. If you message saying "please can I join" Nessie can tell lots about a person in their first letter. Thanks!
